FROM A SINNER'S DAIRY

I know a windmill that points west all the time no matter from which direction the wind volleys and thunders. Like a prophet who always hollers the fruit buds are killed sometimes it hits it.

Speaking of pigs Oom Jim has a sandy ma-hog, aged four, who in five innings has tallied 61 piggy-wiggy-wees. She sometimes miscalculates and totes too many big rag weeds into her nest when she builds it and smaches an heir now an othen. Also she has a large acquaintance thru understanding the science of unmaking fences.
