

The community of Vermontville is very interested in the restoration and repair of the Opera House. This is evidenced by the letters of support from the various individuals representing their organizations or governmental unit. The Township Board and Village Council will be the responsible governmental units and they will consult bi-weekly with a committee made up of one member from each of the following: Village Council, Vermontville Historical Society, Vermontville Township Board and Vermontville Chamber of Commerce.

The Township Board and Village Council and appointed committee will have the responsibility of checking progress and the quality of the work being done. The time line of the project will be from the time the money is disbursed, if we're accepted, until December 31, 1991. This time frame applies to the items we are seeking a grant for.
