Vermontville, Michigan 49096

October 30, 1990

To Whom It May Concern;

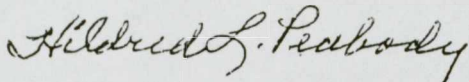

The Vermontville Historical Society has been interested and active in promoting the restoration of the Opera House. What is happening now is like a dream come true.

Much work has been done to bring this building back to a useable facility. In a community the size of Vermontville it is difficult to undertake a project of the magnitude of the Opera House and as a result we need outside help, such as the assistance available through grant monies.

The immediate community and surrounding communities will benefit immensely from the restoration of this building.

Thank you for your consideration on this matter.

Sincerely,

Hildred L. Peabody
Vermontville Historical Society
