To Whom It May Concern;

On behalf of the Vermontville Maple Syrup Festival Association, I wish to add my support to the efforts that are now underway and being planned towards restoration of our historic Opera House. For years this structure has served as a focal point for community activities ranging from educational, cultural, governmental and social events.

With the restoration efforts that are now underway, this building will again serve our community as well as surrounding areas with a variety of activities. There by enriching ours as well as future generations with the cultural heritage of our small community.

Your positive consideration of the recently submitted grant proposal would be appreciated.

Kindest Regards,

Douglas C. Kelsey
