To Whom It May Concern:

RE: Opera House Grant

In our every changing society many things are in constant change such as fads, policies and different ways are implemented in the work places are naming a few.

What a great feeling it is when you have a village loving community as Vermontville who has a opera house that only has countless stories to tell from the past but will also tell stories for years and years to the people not only from Vermontville but to everyone in the future.

The Opera house was and again can become the main focus of Vermontville.

The Vermontville lions are excited about what has been done so far and give their 100% support for another grant to help finish this lasting cornerstone of Vermontville's history.

As Always,

Eugene Fisher PDG, President
Vermontville Lions
