To lead them to the land of honest dealing and low prices and to free them trom the bondage of ten per cent. for freight, compound interest on account and all the other evils of the credit and chattel mortgage system. In our dry goods department we wish to call especial attention to about twenty pieces of

NEW STYLE DRESS GINGHAMS

In all the latest styles of fancy plaids and stripes, to sell at ten cents a vard. The mighty men don't get them because they think they can't afford to handle them, pay freight, stand wastage from remnants and sell them for one cent a yard profit. From their numerous partners, large expenses and immense losses from bad depts, they probably would lose some money on them and we cannot help admiring their judgment in not keeping them, for when we can only clear half a cent a yard they would lose money. We have just opened fifty pieces of spring styles of prints and every thing in the dry goods line is now full. Nothing but this nice line of goods and the low prices could have done it and our friends can assure themselves that we shall devote very careful attention to this branch of trade.

In all departments we are now stocked up heavy and we invite buyers to carefully inspect our goods and prices.
