

"Village Book"

MICHIGAN DEPARTMENT OF HEALTH

VITAL RECORDS SECTION

REGISTER of BIRTHS

Village of Vermontville
 County of Eaton
 From January 1, 1950, to _____, 19____

PRESERVE WITH CARE. Copy each certificate of birth as soon as received, numbering it in order and entering date of filing. Notify physicians and midwives of incomplete data, and issue blank for return of christian name when it is not given on original certificate. Local file numbers begin with "No. 1" for first birth in each calendar year. Also read the entire law, copies of which will be sent upon request by the State Health Commissioner.

DO NOT FAIL to mail all of the oriianal certificates of birth filed with you to the State Health Commissioner when making your report of births on the **FOURTH** (4th) day of the following month. Births that occur from the first to the fourth days of any month should be held until the complete month is reported. As physicians and midwives have five days to report, births occurring in the latter part of the month may be received too late to include in that report; hold them until the next monthly report. **WHEN NO BIRTHS HAVE OCCURRED, THAT FACT MUST BE REPORTED ON MONTHLY STATEMENT CARD**
